

Field Warrior® on the Garmin fleet™ 790

The powerful, reliable, and rugged solution for all of your mobile workforce automation needs.

BUILT-IN FLEET TRACKING & MANAGEMENT SOLUTIONS.

GPS Fleet Tracking

Track your vehicles' true movement, driver behavior, and significant events with GPS updates every 60 seconds or less.

Commercial Navigation

Navigate drivers on safe routes based on the vehicle's weight, length, width, height, and hazardous materials that may be on board.

FleetCam® Dashcam

Use the Garmin fleet™ 790's built-in camera as a dashcam to take advantage of the best fleet vehicle camera solution on the market.

Vehicle Dispatching

Make informed dispatching decisions with real-time information about each vehicle's potential readiness to be dispatched.

FMCSA-Approved Garmin ELD

Our certified ELD solution for Garmin is reliable, ensures you'll be compliant, and delivers more value than typical ELD solutions on the market.

Digital Forms

Create custom digital forms that capture and send just about anything from the field to the office for immediate review.

 Commercial Navigation

Red Light and Speed Cameras

In some regions, the fleet 790 can alert drivers when they're approaching reported speed cameras and red light cameras.

Active Lane Guidance

See a detailed simulation of the road ahead when approaching turns, exits, and interchanges on your route.

Driver Awareness Features & Alerts

Encourage safer driving and increase efficiency with audible tones and visual warnings for speed limit changes, curves, narrow roads, and more.

Powered Magnetic Mount

The convenient, easy-to-use magnetic mount provides power and makes it simple to remove from the vehicle and use outside the truck.

4G LTE Connected

The Garmin fleet 790 has an embedded 4G modem with open-SIM cellular connectivity for an "always-on" internet connection.

Hands-Free Calling

Connect to your mobile phone via Bluetooth to place and receive calls directly on the fleet 790.

OTA Updates

Stay up to date with the latest features and improvements with over-the-air software updates.

 Receive Dispatched Stops
